

UPDATE V2.1

“ShotPro Community Script”

By Miguel Vasquez

- **[Fixed]** Projects ID user
- **[Fixed]** Overflow file support (Help block)
- **[NEW]** Add support key back close modal view full image for mobile device
- **[NEW]** Add multilanguage support

IMPORTANT

<http://YOUSITE.com/upgrade/version21>

****** It is important because it adds to the database fields needed for this versión**

**** NOTE: Enter the URL mentioned above after climbing the**

/ app / controllers / UpgradeController.php

Files Affected

- / **app** / routes.php
- / **app** / **controllers** / ShotController
- / **app** / **controllers** / UpgradeController.php
-
- / **app** / **views** / **default** / upload.blade.php
- / **app** / **views** / **index** / home.blade.php
- / **app** / **views** / **shots** / show.blade.php
- / **app** / **views** / **includes** / footer.blade.php
- / **app** / **views** / **admin** / settings.blade.php
- / **app** / **views** / **admin** / sidebar_admin.blade.php
- / **app** / **lang** / **en** / misc.php – **from where it says version 2.1**

Files News

- / **app** / **views** / **admin** / add-languages.blade.php
- / **app** / **views** / **admin** / edit- languages.blade.php
- / **app** / **views** / **admin** / languages.blade.php
- / **app** / **controllers** / LangController.php
- / **app** / **models** / Languages.php

Note: The **welcome text** and **subtitle** must now edit from the file located in **app / lang / en / misc.php** because of multilanguage support

Thanks!
